

3 easy steps to OneLife iD success

Need help then go to www.onelifeid.com/page/ID-wristbands-videos or <https://www.onelifeid.com/help>

Step 1 – Activate your iD and create your OneLife iD Account

Click on **ACTIVATE ORDER** link in Despatch Confirmation e-mail

OR

Go to <https://www.onelifeid.com/activateorder> and follow the instructions, manually entering the details provided in your Despatch Confirmation e-mail or Despatch Note (included with ID).

* Note: If you are an existing user with a OneLife iD account and profile, then you will be asked for your account login details during the ID activation process.

* If you are activating the ID for another user, then ensure you are logged out of your own user account first.

During activation process, new users create a user account by entering their choice of username (must be email format eg name@abc.com) & password.

Step 2 – Quick Start - Add the ID information you need on your profile

Click on each section and add your details. Start with the basics:

- My Profile – add your name and contact details
- My Contacts – add emergency contacts
- My Medical – add detailed medical information

Step 3 – Discover the other details you can include on your profile

- **My ICE Screen** – create an In Case of Emergency (ICE) Lock Screen or wallpaper for your mobile.
- **My Documents** – store important documents (insurance, travel, passport) as an emergency back-up or for easy access
- **My Profile** – provide your choice of additional personal information. Include; contact information, social media and more
- **My Photos** – add photo for ID purposes plus other favourite photos
- **My Emergency Details** – add additional up to 10 emergency contacts,
- **My Medical** – Medical details, GP, Medical Conditions, Allergies and Medical plus documents and images as attachments
- **My Settings** – Manage account settings - user name, password etc
- **My IDs** – Keep track of your OneLife ID products
- **Stay updated** - sign-in and update your details anytime you need to
